Education

Savitribai Phule Pune University
Bachelor Degree (BA) April 2020

Maharashtra State Board
HSC Class XII April 2016

Skills

Languages: HTML, CSS, JavaScript, Node JS, Express JS, SQL, MongoDB

Frameworks and Libraries: React JS, Bootstrap

Tools: Visual Studio Code, Git, GitHub

Experience

Frontend Developer | Vertical Techsoft Pvt. Ltd. *Sep 2023 – Oct 2024*

- Developed and maintained user-friendly, responsive, and cross-browser-compatible web applications using **HTML5, CSS3, JavaScript,** and **React.Js.**
- Designed and implemented responsive user interfaces using modern frontend technologies, ensuring cross-browser compatibility and accessibility.
- Integrated RESTful APIs to enhance functionality and provide a dynamic user experience.
- Used Git for version control and collaborated with team members through pull requests.
- Debugged and resolved front-end issues to improve user satisfaction and reduce error rates.
- Regularly conducted code reviews and contributed to improving team workflows.
- **Technical Skills:** HTML, CSS, JavaScript, React.js (or other frameworks you've used), Git, API integration, Performance Optimization.

Projects

Introducing WanderLust Airbnb Project

- Developed a full-stack travel application enabling users to explore destinations, find travel itineraries, and receive personalized trip recommendations based on user preferences.
- Implemented secure user authentication using MVC architecture, ensuring a seamless login experience and personalized content delivery.
- Designed and developed dynamic front-end interfaces with HTML, CSS, and JavaScript, ensuring responsive and user-friendly design.
- Built robust back-end functionality with Node.js and Express.js, enabling scalable and efficient server-side processing.
- Utilized MongoDB for secure and efficient data storage, including user preferences, travel destinations, and itineraries.
- Integrated third-party APIs to enhance the user experience with additional travel data and recommendations.
- Applied Joi for data validation, ensuring the integrity of user inputs and application data.
- Managed version control and team collaboration using Git and GitHub.

DS Fitness Gym Trainer Web Application

- Designed a responsive and user-friendly interface to ensure compatibility across various devices (desktop, tablet, mobile).
- Created a feature for gym trainers to manage their schedules, including booking and updating available time slots.
- Implemented a tool for trainers to design and assign personalized workout plans to clients.
- Developed a system for tracking client progress, including workout completion, weight loss, and other fitness metrics.
- Utilized JavaScript to add interactivity, such as real-time form validation, dynamic content updates, and smooth animations.
- Strengthened knowledge in front-end development, including HTML, CSS, and JavaScript.
- Enhanced JavaScript skills by implementing interactive elements and features.
- Gained experience in version control using Git and collaboration through GitHub.

Simon Game

- **Objective:** Developed a classic Simon game that challenges players to repeat a series of random tile clicks, enhancing memory and concentration skills.
- **Technologies used:** HTML, CSS, JavaScript
- Key Contributions: Developed a clean and intuitive user interface; focused on responsive design principles; utilized modern CSS techniques for animations and transitions.

Achievements and Certifications

- Coding Suksha
- Full Stack Web Development
